++ = limited sale of seats available / partially chartered flight

+++ = fully chartered flight / package deals via Travel Agent only

* = arrival next Day

* = not operating from 6 July until 16 August 2009

All other symbols are explained throughout the Timetable

On flights with a flight time above 4 hours juices, water, coffee & tea are provided free of charge.

=====

Mjet doesn't take any responsibility for missed connections unless it is due to operational reasons, Airline accounted.

Transfers at Barcelona & Brussels airports need disembarking between flights, check in at the airport of origin can be done for both flights including through check of luggage on onward Mjet-flights. Mjet does not have any agreement with other Airlines concerning through check of luggage or shared ticketing unless stated otherwise on our website. Any Airline checking through luggage onward on a Mjet-flight is fully responsible for any loss or damage, including compensation payments. Same day return check-in is possible for all flights within 24 hours ahead.

Transfers at Amsterdam can result in a missed connecting flight due to the distances at the airport, especially transfers from a Schengen to a non Schengen-flight or vice versa can take more time then predicted at first. The Airport Authorities can't guarantee that gates are on close by walking distance.

All flights within Europe & North Africa are mostly flown by Airbus-aircraft, Boeing 757-200's, Boeing 767-300's & A330-200's are used on high density & intercontinental routes. Our Boeing 767's are equipped with TV-screens showing a variety of movies, shows and Travel-information. Further the use of a Laptop or mobile notebook is possible due to power supplies at almost every seat row. Our Airbus 320's are equipped with a personal video system with pay per view for our Travel-information programme. Payments are only possible by charging your credit card, all major credit card companies are accepted. You buy time to view our Mjet E!-programme, buying extra time is possible by again charging your credit card and follow the steps on your personal video screen.

A booking made for a transfer is at your own risk, Brussels & Barcelona are our only designated Hubs at which Mjet provides a Transfer Desk (or General Handling Agent). Transfer check-in for other flights can be done online or at the Gate of the onward flight, if not done at check-in at Airport of origin.

Minimum transfer time needed:

Brussels	- 40 minutes (European to international flights)
	- 60 minutes (International to European flights)
Barcelona	- 45 minutes (Domestic to International flights)
	90 minutes (International to domestic flights)

Above times are published by Airport Authorities

All other Airports in our network are not recognised as Transfer Airports and therefore schedules are not designed to suit a proper transfer to a onward flight, this does sometimes result in more transfer time then comfortable.

Mjet provides a Timetable 2x a year, adjustments can be made without prior notice BUT Mjet intends to contact all affected passengers if changes are drastic, minor flight time adjustments (- 30 minutes) are not recognised as drastic and should be noticed by customers.

All domestic and European flights are not operating on 25 December 2010 & 1 January 2011. On December 31st & other Holidays flight schedules can also be adjusted in the weeks ahead. Passengers affected will always be notified a.s.a.p.

Check the website for cutbacks of our flight schedule regularly, passengers affected will be contacted by the Airline call center.

Mjet is not a IATA-member which means that in case of any cancellation or delay no compensation or hotel-overstay will be provided unless told otherwise by EU-law or by the decision of the Management.

On flights departing between 00:00 & 12:00 we offer pre order breakfast menus & newspapers for sale, between 15:00 & 00:00 we offer pre order dinner menus for sale with flight times exceeding >2 hours.

On mid day flights and flights shorter than 2 hours we offer a Snack service which also consists of sandwiches, sweets & soft drinks.

Special Meals are not on offer, Mjet intends to offer a well balanced service which is suitable for all passengers.

Alcoholic beverages can only be sold to passengers older than 18 years, except on flights to/from the USA, passengers need to be 21 or older. Cabin crew will ask for ID.

We would like to state that due to limited space on our Airbus-fleet there is always the possibility that food and/or beverages could be sold out. Our aircraft are catered at our bases only, this is due to the short turn around times at destination airports.

Mjet is not responsible for Gate changes, this is a decision made by Airport Authorities, passengers should be aware of & present at the correct gate at scheduled boarding time.

Mjet is not responsible for missed connections when using another Airline as a feeder-service for our onward flight. We don't have any agreement with other Airlines which could make us liable to offer a free rebooking or accommodation.

Mjet is not responsible for any loss or damage of items taken on board, passengers should always be alert to take their belongings from board after the flight. Loss of luggage or damage for which the Airline is accountable should be noted to our GHA immediately on arrival. When no PIR is made up by our GHA a claim is refused at all times.

Preferred seating is not offered by Mjet, special requests due to medical reasons can be requested by e-mail and will be handled by our Customer Care Dept.. We would like to note that a request is not a guarantee, the Airline always keeps control of the seating. Seat requests for extra legroom are not accepted unless accompanied by forms which state that length exceeds 2 meters.

Due to night curfew at several airports Mjet operates so it could be possible that a flight has to divert, this happens when a flight is (heavily) delayed. In conjunction with the E.U regulations Mjet will provide complimentary bus transport until the destination airport. We remind you urgently that Mjet does not provide and/or refund any additional costs made by passengers for further transport to their final destination. Flights scheduled to arrive at 06:00 hrs AM local at Stuttgart and 07:00 hrs AM at Rotterdam will not arrive earlier than this time due to the curfew. This can not be accounted as a delay due to the fact that the scheduled flying time is depending on the operational hours of every airport.
